

HORROR GROWS IN MAGNITUDE

Disaster To Atlantic City Electric Train Brings Death To Many Passengers.

DIVERS BRING BODIES FROM WRECK

Death List Larger As The Gruesome Work Is Continued By The Wreckers--More Bodies Are Recovered.

[BY ASSOCIATED PRESS.]
Atlantic City, N. J., Oct. 29.—Fifty-three persons are now positively known to have lost their lives in the waters of the Thoroughfare yesterday when the electric train jumped the rails on the drawbridge. Forty-seven have been identified and two of the missing four are unidentified.
This morning's report.
Atlantic City, N. J., Oct. 29.—The indications today were that sixty-six persons lost their lives in the trestle wreck of the Electric Line of the West Jersey & Seashore Railroad on Sunday night.
Bodies Recovered
It is known there were ninety-one passengers on the ill-fated train. Twenty-five have been accounted for and forty-eight bodies have been recovered. The dead thus far identified were residents of either Pennsylvania or New Jersey.
Onto The Trestle.
The wreck occurred at the drawbridge which spans the stream a mile outside the city and was directly due to the draw failing to work properly. The fishing schooner, Sibband, had just passed through the drawbridge and before the draw had swung into position, three cars, running at a high rate of speed dashed onto the trestle.
Down into Water
With a lurch forward the first car dashed into the guard rail, the other two following. At the point where the cars jumped the trestle it is nearly twenty feet high. The first cars were instantly submerged, but the third car caught on abutment and remained suspended. It was this car from which nearly all the injured escaped.
More Bodies
At eleven fifty-one bodies had been recovered from the first of the train. Of the dead twenty-nine bodies have been identified. How many, if any, remain in the second car is not known but with the aid of three divers, who were brought here today from Philadelphia it is thought the second car will be completely surveyed before night.
Later Dispatch
Atlantic City, N. J., Oct. 29.—At noon the identified dead numbered forty-two. Emmanuel Bernard of New York, an actor and a nephew of Sam Bernard the comedian, was among those killed.

MICKEY RILEY STAYED FOUR ROUNDS WITH CHAMPION JOE GANS

Pugilist Who Boxed Before Eagles Last Spring Won Fifty Dollar Purse in Milwaukee.

"Mickey" Riley, the cross-eyed pugilist who boxed Steve Kinney to a draw before the Janesville Eagles on the night of election day last spring, met Joe Gans, the world's lightweight champion in Milwaukee Saturday night. The go was for four rounds and Riley was to receive a purse of \$50 if he remained. The mighty old oved puncher could not knock out his opponent and Riley won the money. Riley has never been knocked out.

TAKE SIX BODIES FROM LUTIN Victims of French Submarine Accident Appear to Have Died Instantly.

Bizerta, Tunis, Oct. 29.—Six bodies of the crew of the French submarine boat Lutin were removed from the vessel Sunday.
The Lutin sank off this port on October 18, with 14 men and two officers on board. She was commanded by Lieut. Pepoux. The bodies of Lieut. Pepoux and four men were found clustered and four, six bodies were found in the stern, and the remainder in the bow. All were in a horrible condition, owing to the action of acids.
The only means of identification was by means of objects found on the corpses. Most of the men were barefooted. The indications are that they met their death instantly.
The opinion prevails that the Lutin tried to come to the surface too rapidly and that her stern consequently struck on the bottom. This caused rivets to start and plates to burst. Six leaks were found in the hull.

FISH GET DRUNK ON SUGAR BEET JUICE

Dispatch From Owosso, Michigan, Tells of Wholesale Slaughter of the Finny Tribe.

From Owosso, Michigan, comes the tale of drunken fish and wholesale deaths from intoxication among the members of the finny tribe. The story is of particular local interest for the intoxicant in juice from sugar beets. The dispatch follows: "The sugar beet is no friend of the angler. Refuse from the factory at Owosso has killed practically all the fish in the river, and farmers are picking them up more dead than alive and salting them down for winter use. Pike, pickerel, bass, and other kinds are to be seen floating along the river, and they are easily carried away by the baskets. Bushels of dead fish were carted to nearby farms to feed to hogs."

CHICAGO'S SEVENTH ANNUAL HORSE SHOW

Event Will Be Success from Viewpoint Both of Society and Horse Lover.

[SPECIAL TO THE GAZETTE.]
Chicago, Oct. 29.—Chicago's seventh annual horse show is on, and during the remainder of this week the aristocratic equine will reign supreme. The word-out phrase of "bigger and better than ever before" may be truthfully applied to the present exhibition in which the entries are more numerous and of a higher class than in previous years. Southern breeders are especially well represented this year, while many of the foremost stables in the east have sent their blue ribbon horses to capture the prizes and trophies. From the indications on this, the opening day, the show will be a big success from the viewpoint both of society and the horse lover. The polo ponies are especially in evidence this year, and the four-in-hands, tandems, hunters, jumpers and light harness classes are all well filled.

REPUBLICANS SATISFIED THEY WILL DOWN HEARST

Last Week Of Campaign Will Be Strenuous, And The Finish Will Be One Of Red Hot Fire And Brass Band Music.

[SPECIAL TO THE GAZETTE.]
New York, Oct. 29.—The present week will close one of the hardest fought campaigns in the Empire state has witnessed in years. Judging from all indications the republicans are not to be the victims of overconfidence. They are working as though they had the fight of their lives on their hands. Nothing will be left undone, according to the party managers, to deal a crushing blow to Hearst and his associates at the polls next week and to put a quietus to the political ambitions of the young New York editor.
With but six working days before them, the republicans profess to be very well satisfied with the outlook. All the reports that reach the state headquarters are sanguine, except from a few of the manufacturing centers, where Mr. Hearst has a considerable following. Chairman Woodruff says he never felt more certain of a successful outcome in any campaign in which he has taken part.
At the Gilsey House headquarters the Hearst managers are preparing for a whirlwind finish to the campaign. Between now and Saturday night, Mr. Hearst will deliver two score or more speeches. Hurried trips will be made to several points up state, while the last of the week will be devoted to the wind-up in Greater New York and vicinity. With the thorough, systematic and business-like methods that have characterized their contest from its initial stages, the Hearst people

undeniably are setting a fast pace that keeps the opposition hustling.
The preparations made for this week insure lots of entertainment and excitement for the voters, not only in this city, but throughout the state. The republicans who so far have paid little attention to the spectacular of picturesque features have completed plans for a red fire and musical finish to provide an appropriate setting for the oratory of their spellbinders. Mr. Hughes will have some rivals for public attention in the persons of Secretary of the Treasury Shaw, Secretary of State Root, Speaker Cannon and several others who are to take a hand in the task of educating the masses.
Interest in Pennsylvania
Philadelphia, Pa., Oct. 29.—The most important mass-meeting of the present campaign in Pennsylvania takes place in this city tonight with Senator Knox presiding and Attorney General Moody as the principal speaker. The participation of Mr. Moody in the state campaign is regarded by many as significant of the desire of the federal administration to aid in the election of the regular republican ticket. Mr. Moody's relations to President Roosevelt are so peculiar, his deference to the President in such matters so thoroughly understood, that his coming into Pennsylvania is generally regarded as meaning that the President is in sympathy with the regular ticket.

GIVE CHILDREN A FAIR CHANCE

SAID REV. J. W. LAUGHLIN IN SUNDAY EVENING SERMON.

PARENTS MUST BE PATIENT

Each Child Should Be Developed Into a Masterpiece But Not in One Day's Time.

"Child Culture" was the subject of Rev. J. W. Laughlin's evening sermon at the Presbyterian church yesterday, the address being one of a very interesting series on the making of the home. Mr. Laughlin said in part as follows: One of the essentials to child culture is patience on the part of the parent. How old are you, father, mother? Between thirty and forty. How old is your child? Between five and ten. Are you not dreaming that your child between five and ten years of age shall conform to an ideal to which it has required you from thirty to forty years to reach? Patience, my dear parent. Your child has only been here a short time. You cannot expect it to know as much as you do. He cannot sit still as you can. He cannot refrain from talking like you can. He does not know as much about right and wrong as you do. His experience has not been so varied as yours. He is a child. You are a man. He is a little boy. You are a grown-up.

Masterpiece or Failure
 The training of a child is like a work of art. You have it in your power to give the world a masterpiece or a failure. But masterpieces are not made in a day. When Raphael would give to the Vatican at Rome that masterpiece "The Transfiguration" he did not do it in a day. When Michael Angelo at the Pope's request painted on the ceiling of the Sistine chapel "The History of the World" a work of art for future generations to admire—he did not begin and finish it in a day. Neither Raphael, Angelo, Rubens, Turner or any other who values his work whether he be among the old masters or among the artists of a later day would think of giving to the world an expression of high art except they had put the greatest of patience on its execution. There is no higher art than that in which you as a parent are engaged.

Many years of work.
 A flower such as Luther Burbank might spend months and years upon it, bringing it to a high state of development is not to be compared for one moment to that bud of promise in your home. It is a great thing that all down the ages the old masters should vie with each other in producing the Madonna so that she should be the perfection of all beauty and loveliness. But what is the Madonna of the old masters in comparison with that sweet face of innocent childhood which every evening climbs into your lap and in trusting, trusting confidence goes to sleep? There is beauty in that and hope. There is love in that and trust. There is power in that and possibility. To bring out all the possibility in that life and to train it for something noble is a task in which the angels of God might vie with each other in doing. But it has been given to you father and mother and in the doing of it you will need all the patience you can command.

The Neighbor's Standard.
 I have often thought that parents lose their patience in training their children more because of what they imagine other people will think than because of any real disapproval on the part of the child. Our pride, our sensitiveness, our vanity allows a neighbor to erect a standard and we foolishly try to bring the child up to it. It may be, and indeed it often is.

Catarrh of the Stomach

A Pleasant, Simple, But Safe and Effective Cure for It.

COSTS NOTHING TO TRY.
 Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloated sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing, headaches, flicker appetite, nervousness and a general played out, languid feeling. There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is, found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harrison, the safest and best treatment is to use after each meal a tablet, composed of Dipsa, Aseptic, Pepsin, a little Nux, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. R. S. Workman, Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from their use."

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, Catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals.

Myers Theatre Will Not Again Be Uncomfortably Cold As It Was For "Ole Olson" Performance.

Uncomfortably Cold as it was for the Scandinavian character an eccentric Scandinavian, was presented at the Myers Theatre Saturday evening with a Northland climatic environment that was entirely too realistic for the comfort of the moderate sized gathering of spectators. The work of remodeling the steam heating system and installing the new boiler under the play-house was to have been completed several weeks ago but there have been delays which the management was unable to forestall. However, beginning with tonight, it is announced that the plant will be in full operation and that there will be no further cause for complaint. Ben Hendricks, billed as the "Northland Singer," rendered the "Strawberries" yodel song and other numbers in a manner that pleased. His dialect work was a trifle forced and artificial but on the whole the production pleased.

JANESVILLE WON A DECISIVE VICTORY

Defeated the Beloit High School Eleven by the Score of 22 to 0 Saturday.

At Athletic park Saturday afternoon the Janesville high school football team defeated the Beloit high school eleven by the score of 22 to 0. Two of the touchdowns were made by Nuzum and one each by Cassidy and Langdon. Wright made a sensational long run but the ball was brought back to a point ten yards behind the starting point because he stiff-armed an opponent who was trying to tackle him. Despite the inclement weather a good sized crowd of rooters turned out to witness the contest. Next week's game will be played with the Monroe high school team at Monroe. Badgers, O. Beloit, O.

HAD A CONFERENCE WITH ARCHBISHOP

Citizens' Hospital Committee Reached Understanding with Eminent Churchman Regarding Details of Plan.

At the home of Dean McGinnity Sunday evening the members, with the exception of George Palmer, of the citizens' committee which is promoting the new hospital proposition, met with Archbishop Sebastian B. Messmer by appointment and conferred with his regarding the matter. The subject was freely discussed and an understanding was reached whereby the citizens, if the project is realized, will be represented on the board of managers. The property, as is the invariable custom will be deeded to the Sisters of Mercy, who have a strong state organization. Unless the citizens wished to raise the money for the entire investment, take all of the responsibility, and pay the Sisters for conducting the institution, there remains no other plausible and reasonable alternative. For the \$5,000 which the residents of Janesville are expected to contribute will be but a small part of the total investment. Within five years this should amount to from \$25,000 to \$30,000 and there should be not less than fifty beds. If all goes well, a similar institution was started in a small way in a Rockford dwelling-house five years ago and today the Sisters own a well managed property worth \$60,000.

Party of Janesville, Beloit, Whitewater, and Monroe People Will Depart at 5:10 P. M.

At 5:10 this afternoon a party of local people will board at the St. Paul depot a special car chartered by Janesville, Beloit, Whitewater, and Monroe residents, and for a long trip to California.

The party, from this city, will include Fred Edden, Burns, Fowler, Herbert Goldin, and Frank Phelps, all of whom expect to locate permanently in Los Angeles, Pasadena and neighboring cities; Mr. and Mrs. C. D. Childs, Mrs. C. E. Brown, Miss Clara Dunwiddie, and Miss Belle Buob.

Janesville Daily Gazette, Monday, October 29, 1866.—We learn that Rev. Joseph Wood has accepted a call to Christ church parish in this city. He is expected to take charge about the first of December next.

Discharged—No Evidence.—Saint Hubert, who was arrested on the charge of complicity in the robbery of Wright & Hunt's store, was discharged on Saturday afternoon before an examination was had, it being ascertained that there was no evidence to substantiate the suspicions that had been awakened against him. The only foundation for his arrest was a letter which he was said to have received which looked to some knowledge on his part of the burglary. On gaining possession of the missive, however, it contained nothing which even looked suspicious. The men, Galen and

Marsh, who were arrested on the charge of having done the burglarizing, were discharged from custody this morning and went on their way rejoicing.

Political Meeting.—At the Court Room on Wednesday evening, the 31st inst., at 7 1/2 o'clock, Hon. J. R. Doolittle, Hon. George B. Smith and Hon. D. E. Weymouth will speak on the political issues of the day. All are invited to attend.

An Accident—Almost.—During the snow storm on last Friday, Mr. John Wagoner, who is engaged on the new railroad bridge, slipped from the timbers and fell to the mason work below, a distance of some fourteen feet. Fortunately he struck in such a position as not to seriously injure him, though he was considerably jarred.

HERMAN DICK BUYS TWENTY ACRE TRACT ON WASHINGTON ST.

Chicago Man Says That He Will Build Thereon a Modest Home.

Not a Mansion.
 Herman D. Dick, son-in-law of Mr. and Mrs. C. B. Withington, was here from Chicago, this morning and completed the purchase of the tract of land in the first ward on which he expects to build a home. Anent an article which appeared in this paper on October 17, he said to a representative of the Gazette: "I wish that you would correct the impression that I am going to erect a mansion here. I am simply going to build a home, no better and no worse than many others in the city. My wife and I have wandered about the world considerably during the past few years, having six trips across the Atlantic, and we been inclined to my itinerary and we are ready to settle down. Largely because our son, whose death occurred last summer, was buried here, we are coming to Janesville to live. Our home in Chicago was sold a year ago."

The property purchased by Mr. Dick today includes twenty acres, eight from the Rexford tract located on the south-west corner of Magnolia avenue and Washington street, and including the hedge and windmill, and twelve from the Palmer estate across the way and including an 800-foot frontage on the river. Building operations will probably commence in the spring. Mrs. Dick is still at French Lick, Springs, Indiana. An architect arrived from Chicago this noon to look over the ground. Mr. Dick has been engaged for a number of years past in the work of promoting some of the more important inventions of Thomas A. Edison, particularly the new vacuum mining machinery for the operation of which he organized a \$10,000,000 company in Norway.

Saturday afternoon and evening, Nov. 3—Mabel Barrison and company in the musical play "The District Leader."

"A Message from Mars," which will be seen at the Myers theatre this evening, is a comedy that has "made good." It was written by an American. It had its production in London by a London manager. It was so great

more than two years at the Lyric Theatre in London, and which was enthusiastically received at the New York Casino Theatre. In the cast besides Eddie Foy, are well known Metropolitan favorites, and a beautifully groomed singing and dancing chorus of eight pretty girls. The story of the play relates the long search for the heir to an earldom, and his efforts to convince those who are seeking him, and who are his enemies, that a wandering circus performer is the real earl. An American heiress, a "strong woman" in a circus, a brace of angry American parents and a batch of English and American lawyers assist in the complications. It is said the plot is so substantial that "The Earl

SEND TROOPS TO AWE UTES

MORE CAVALRY SENT FROM FORT ROBINSON, NEB.

Hope Prevails That Display of Military Force May Tend to Overawe Recalcitrant Indians.

Omaha, Neb., Oct. 29.—The departure from Fort Robinson, Neb., Sunday of four troops of the Tenth cavalry makes sixteen troops of cavalry, a total of 765 officers and men en route to the scene of the depredations of the Ute Indians, now supposed to be in camp on Powder river in Wyoming.

Four troops of the Tenth, under command of Major Grierson, are now in Wyoming near the Indian camp; six troops of the Sixth cavalry, 275 strong, from Fort Meade, South Dakota, and two troops of the same regiment from Fort Keogh, 90 strong, under command of Colonel Alexander Rodgers, are en route for that point.

Angus went with the detachment which left Fort Robinson and, as senior officer will be in command of the entire expedition. No move will probably be made until all the forces are joined.

"It is hoped by the display of a strong force to overawe the Indians and prevent a fight," said Major C. A. Hoyes, military commander of the department of the Missouri. "They are, however, well armed and very sullen and it is hard to say what will happen. There are about 350 in the party, including women and children, but I do not think there are over 150 fighting men among them."

DAVID PROCTOR AND ELIZABETH VALENTINE IN "A MESSAGE FROM MARS" AT MYERS THEATRE THIS EVENING

A success there that it was played at the same theatre for more than one thousand nights continuously. Sunday nights excepted, of course. When it was brought to America it was installed in one of the Broadway theatres and there it remained for more than seven hundred nights. This, in brief, tells the story of the success of this comedy. "A Message from Mars" possesses those characteristics which appeal strongly to the taste of the great body of playgoers, such as a plentiful allowance of light comedy

"ELPHIN HAYE" OF "THE EARL AND THE GIRL"—THURSDAY NIGHT

varied by occasional touches of pathos, a dash of melodrama, a slight flavor of the supernatural and an unimpeachable purpose or moral. In this play, David Proctor, one of the most prominent young actors in the United States, is appearing as the star, and has proven himself a worthy successor of the great English actor, who first appeared in the play in London, and later in the United States. Several members of Mr. Proctor's company have been appearing in this play from the first night it was brought out in London.

Thursday Night's Attraction.
An elaborate Shubert production, "The Earl and the Girl," with Eddie Foy in the leading role, will be the offering at the Myers Theatre Thursday, Nov. 1. This will be the first presentation in this city of the famous musical comedy which scored a run of

membered and is known from coast to coast as the woman who made "The Land of Nod." "The Three Graces," "Babes in Toyland," "The Wizard of Oz," etc. Her "Sammy" song from the last mentioned production, being the greatest hit and most widely copied of any song in the history of musical comedy, the highest tribute that can be paid an artist. Miss Barrison has a second "Sammy" hit in "The District Leader." Can you imagine a chorus of twenty-eight of the prettiest girls on the stage today, hovering about the choicest bit of feminine brio, a brace? If you can, you have a picture of little Miss Barrison and her playmates. She will appear at the Myers Theatre in "The District Leader" Saturday, Nov. 3. She will be assisted by Jos. D. Howard, the famous composer and song writer, and a well balanced company numbering

FAINT PRAISE

Gov. Davidson is honest, he will do the best he can and will not knowingly take any step which will be an injury to these principles. Senator La Follette's speech at Albion, Oct. 25, 1906.

This is a sample of the enthusiastic endorsement accorded to the state ticket. The governor will do the best he can; the balance of the ticket is neither entitled to support nor recognition.

It is not at all surprising that Chairman Connor finds himself between the devil and salt water in attempting to conduct a campaign with a La Follette contingency.

The junior senator reserves the right to support men whom he deems worthy of recognition and to denounce other party nominees who do not come up to his standard. His right, however, Lenroot, who is out gunning on his own account, claims the same right and thus expresses himself in a letter to Chairman Connor:

"Superior, Wis., Oct. 19, 1906.—Hon. W. D. Connor, Chairman Republican State Central Committee, Milwaukee.—Dear Sir: Replying to yours of the 17th inst. asking me to place my services at the disposal of the state central committee in the present campaign, will say that last Monday Gov. Davidson informed me that you made a condition that all speakers assigned by your committee must actively support all republican nominees, and it was suggested by Gov. Davidson and some of his friends present that perhaps I would not care to speak for Mr. Boden as against Mr. McGovern in Milwaukee, or for Mr. Babcock in the Third District, and perhaps it would be better that I speak independently of the committee.

"If my information is correct I cannot accept your invitation. I have always held that good citizenship comes before good partisanship, and if an unfit man happens to be nominated there is no duty resting upon any republican to support him. Indeed, the best service that can be rendered the party is to vote against such men. You will remember that no such condition was imposed two years ago.

"I will say, however, that I am very much interested in the success of the republican party in this campaign, and the principles it stands for, and am ready and willing to do what I can to bring that about. I must, however, reserve my right of independent judgment and refuse to advocate the election of men whom I deem utterly unworthy of filling the office they seek."

It is currently reported that La Follette is to speak in Milwaukee this week for the disgruntled candidate, McGovern. There you have it. A disappointed senator and his defeated side-partner, defying the wishes of the people in an untrammelled expression through the primary law.

A law for which the former is responsible, yet ignored at the first turn of the wheel, because he claims to know more about what the people want than they know themselves. That's consistency with a vengeance.

The republican party has endured a good deal of nonsense at the hands of the mosaic leader, but this exhibition of sublime egotism caps the climax and opens the eyes of many delirious followers.

The argument was made that under the caucus and convention system the people were machine-ruled and that the primary law would purify the political situation, but it turns out that the primary law is all wrong, unless the verdict of the people is in harmony with the demands of the dictator.

There is only one way to satisfy a man who knows it all and whose wisdom is supreme, and that is to establish a throne, place a sceptre in his hand and give him complete control. Wisconsin is not yet ready for this sort of a dynasty.

FARMERS TO THE FRONT

Minnesota has a Rock county, populated by enterprising farmers. They have established in Chicago a farmers' commission house under the management of A. H. Carr & Co., where they market their farm products in carload lots.

The "Hills Crescent" is a paper published in this thriving county in the town of Hills. The following letter was recently received by the paper from the management of the Farmers' Commission House. It speaks for itself.

"We believe the farmers of your portion of the country are smart enough to know a good thing when they see it.

"It must look good to them to see Timothy seed which they sent to the Farmers' Commission House placed on the Chicago market at from 20 to 30 cents better price than sales made by any other concern in the trade the same day.

"On September 14th we succeeded, by finding the right buyers, in marketing 1235 bags of Timothy seed, which came to us direct from farmers around Eyota, St. Charles and Horton, Minnesota, at fancy prices. A large portion of this Timothy seed brought \$3.70 per hundred, and many other lots from \$3.40 to \$3.55 per hundred. "No other house sold Timothy seed on the Chicago market that day above \$3.35 per hundred.

"On October 3d we sold another car of Timothy seed from an Iowa point, and through holding it over, a day succeeded in finding a buyer for it at prices which netted the shipper nearly \$100 more than the best previous offer we had for it.

"We wish to make the point, that not only did we secure far better than ruling prices for this seed, but the farmers themselves, in making their own shipments of seed to the Farmers' Commission House, saved the home buyers' profits, which, at 25 cents per hundred on the seed sold that day by us, would amount to \$300. In addition to this, the fancy prices, obtained by special efforts, would easily amount to as much more.

"We believe these farmers and others when they put on their thinking caps will agree with us that the \$300 additional money is a very good thing to have in the neighborhood.

"It is obvious that when farmers make more by direct shipping to their every business enterprise in their neighborhood depending upon them for support, and all farmers should practice it."

THE TWO SENATORS

The following statement issued by Chairman Connor of the republican state central committee speaks for itself and clears up some of the for surrounding the question of the attitude of the two United States senators.

It will be noticed that the junior senator and his running mate, Lenroot, declined to work with the party through the committee, while Senator Spooner placed himself in the hands of Chairman Connor early in the campaign. Mr. Connor says:

"Shortly after the platform convention I received an offer from Senator Spooner to speak at such places in the state as the committee might assign him to. I wrote Senator La Follette and Mr. Lenroot, asking them to place their services at the committee's disposal.

"A reply came from Senator La Follette and several days later one came from Mr. Lenroot declining to speak under the auspices of the state committee which had been elected at the primary convention as provided by the primary election law, both gentlemen preferring to arrange their itineraries independently, and not to work with the state central committee.

"I understand that Senator La Follette has started out and is taking part in some meetings in Dane county, but do not know what Mr. Lenroot's plans are.

"A number of requests have been received from the county committees of several counties for speeches from Senator Spooner, one from the county committee of Eau Claire county; one from Monroe, one from Portage, and one from Marathon, and the senator has been assigned to speak in those counties."

If Governor Davidson is wise, he will stay by Chairman Connor and the party. When the fog of the campaign clears up it will be discovered that disloyalty is not a popular password, and that the men who advocate it are leaders of a forlorn hope.

The organ of populism, "Tom Watson's Magazine," has changed hands, and Watson and his son have retired from the field. "Watson's Magazine" without Watson will mean a party without a leader, for he was the inspiration of the erratic movement.

Senator La Follette made his initial campaign speech at Albion. He did not enthuse much over the state ticket and suggested that representative government was in need of a new party.

An effort is being made on the part of Collier's and some other magazines

to destroy parties and make of all men independent voters. The policy pursued is a direct stab at the foundation of the republic.

Party purity comes from efforts made within the party, and not from criticism or desertion on the part of the independent voter.

Municipal government when at its best is free from politics, and at its very best is when in the hands of a commission. The state and nation will always be under party control and always should be.

PRESS COMMENT.

Back to the Thornapple! Superior Telegram: Anyhow, election will soon be over and the public will be able to again turn its attention to John Dietz and the Thornapple dam.

Stop It, Girls!

Oshkosh Northwestern: Those Lawrence university co-eds who have been playing leap-frog in their nightgowns had better cut it out. If one of them should happen to take a snapshot picture of the scene it might cause a good deal of embarrassment for the giddy young things.

Voter Cares Not at All

Geo. Grunelle in the Evening Wisconsin: It is pretty clear proof that harmony is restored in the republican party when the only wrangle that can be stirred up is as to whether certain speakers are to be routed by the state central committee or are to make their own dates. What does any sensible voter care about these trifles?

Disappointed Duke

La Crosse Leader-Press: The Duke of Marlborough indignantly denies that Father-in-law Vanderbilt ever gave him anything except the \$500,000 paid at the time, and in consideration of his marriage to Consuelo Vanderbilt, and he therefore shows the reason for his present bitter dislike of his wife's family. He was disappointed in finding that the sum received on the day of his marriage was not merely a first installment.

Apologizing to Judge

La Crosse Chronicle: The Chronicle learns that it owes an apology to Mr. "Jud" Phillips. It appears that our characterization of Mr. Phillips as a "bolter" was unwarranted by the facts. We understand that the distinguished lecturer on farm architecture is not a republican at all, but a prohibitionist. He is not, therefore, a republican "bolter." He is just a plain old mischief-maker and common scold.

Jim's Rosy Promise

Madison Journal: Gov. Davidson makes the astonishing statement in his speeches that perhaps not one of his hearers will live to see a state tax levy again and that not a dollar will have to be raised by tax probably for the building of the new capitol. Gov. Davidson is not given to extravagant utterances and this statement argues powerfully for continuation of republican rule.

Too Late to Carp

Evening Wisconsin: The big hauls of carp by those who are trying to rid Lake Koshkonong of that undesirable fish are shipped to consumers in the east who consider carp a delicacy. This proves that the introduction of carp was a mistake only in the choice of waters in which to plant the fish. Had the carp been placed in marshy or muddy lakes instead of among the game fish of the favorite resorts, there would have been profit without trouble.

Douglas County Division

Green Bay Gazette: The city of Superior is agitating the question of petitioning the legislature this winter for a division of Douglas county whereby the city will be made a county by itself to be known as the county of Superior while the balance will retain its present name. The county in its present state is a large one, being about forty by thirty-six miles in size, the most of which consists of undeveloped land over timber land. Those who are in favor of the division claim that this undeveloped land is a great burden to the city which has to pay the county expenses. Those opposed to the scheme retaliate by saying that this heavy expense arises from official mismanagement; to call it by a pleasant name.

Through Democratic Spectacles

Milwaukee News: If the Washington dispatches are to be credited, Secretary Root will be the next member of the President's cabinet to retire to private life. And Root's going will be because he is satisfied that Mr. Roosevelt is laying his plans to become a candidate for a third term. When Root was induced to enter the cabinet it was with the understanding that Roosevelt's mantle should fall upon his shoulders. Taft was to be gotten out of the way with a supreme court berth and the coast was to be made clear for the secretary of state. Taft declined the bait. Then Root was shipped off to South America to gain prestige as a diplomat. And he performed his mission well, but greatly to his chagrin, he had hardly assured the South Americans that the "big stick" was a harmless bogey and that the United States had no designs upon its neighbors' territory than the Cuban "revolution" made its mushroom-like appearance and the President, figuratively speaking, leaped into the saddle and started a full tilt to assert the authority of the big policeman. Root tried to stop it, but his words of caution sent by cable fell upon deaf ears.

STEAM ROLLER WAS WRECKED IN CREEK

Drops Almost Out of Sight into Spring Brook This Afternoon—Traffic Blocked.

Shortly before two this afternoon the city steam roller dropped almost out of sight in Spring Brook, having taken an unpremeditated dive through the Spring Brook bridge on Beloit avenue while on its way to the Hughes farm south of the city. One of the main street cars had just crossed the bridge when the accident occurred and is marooned on the other side. The big machine stands almost end for end and all traffic is blocked. It will take some time to haul it out. The machine passed over this bridge a week ago safely and no trouble was anticipated this time. The two men on the machine were not injured.

SNOWBOUND OUT IN CHEYENNE, WYOMING

Mr. and Mrs. James G. Gregory, Jr., Had Queer Experience on Wedding Trip.

Mr. and Mrs. James G. Gregory, Jr., returned Saturday evening from their wedding trip in the west. They departed two and a half weeks ago and spent the first ten days in Denver and visiting the points of interest in the Rocky Mountains. They intended to leave Salt Lake City for San Francisco a week ago yesterday, but were unable to go, no trains being run. The wind storm had crippled all telegraphic communication and the railroads were blocked for thirty hours. Snow followed the wind and Mr. and Mrs. Gregory decided to abandon their trip to Frisco. The Los Angeles limited, over the Oregon short line was unable to get through and was sent over the Rio Grande system to Cheyenne. They arrived there at ten o'clock one morning and did not leave until noon the next day, the train being snowbound and it being unsafe for the passengers to even venture from the coaches. Meals were served on the "diner."

WEDDED HERE TODAY, LIVE IN CALIFORNIA

Miss Abbie Shook and John S. Kolb Married at St. Mary's Church at Nine O'clock.

Miss Abbie Shook and John S. Kolb, both of this city, were united in marriage at St. Mary's church this morning at nine o'clock. Rev. W. A. Goebel pronounced the ceremony and the male choir sang, the groom having been a member. Mr. and Mrs. Kolb will go to California to reside, he having a position there. The bride is the daughter of Mr. and Mrs. Daniel Shook of Pleasant street and the groom has been employed up till lately at the mill of the Janesville Sash & Door company.

BELOIT DEMOCRATS VERY APATHETIC

Only Fifteen of Them, Including Two Women and a Boy, Attended Big Rally at Theatre Saturday Night.

As a campaign year, that of 1906 seems destined to go down in history, as far as Wisconsin is concerned, as one of the quietest on record. Three Janesville democrats, happening to be in Beloit Saturday evening, attended a democratic rally at the theatre at which P. H. Martin and J. J. Cunningham were billed as the principal speakers. The audience consisted of speakers, including two women, a boy, and the janitor. Despite this lack of interest the speakers went gamely ahead with the program. Chairman Cornelius Buckley introduced the speakers as follows: "Ladies and Gentlemen—I am glad there are so many of you here tonight. I have the great honor this evening of introducing the speakers to an audience representative of the intelligence of Beloit. I now introduce to you"—etc.

MILLER CASE WILL BE TRIED TOMORROW

Motion to Dismiss Action Against Mrs. Ulrich Argued This Afternoon—Three Drunks in Court.

In municipal court today the new trial of the State vs. Horatio Bliss was set for Wednesday, November 7. At three o'clock this afternoon a motion to dismiss the action against Mrs. Ulrich on the ground that the complaining witness is her husband and the law does not permit a husband to testify against a wife, was argued by Marshall P. Richardson. A juror, returnable tomorrow morning, was drawn for the trial of the baby, Joseph Miller, who is charged with attempted burglary of the Lawrence house, 212 West Bluff street, on the night of Saturday, October 6. Harry Day, August Lemke, and Emmett Conroy were fined \$2 and costs each for drunkenness and paid their fines.

TWO SMALL WRECKS ON NORTHWESTERN

Two Locomotives and Several Cars Derailed in Local Yards Last Night.

As freight train number 598, southbound, was departing from the Northwestern railway yards here last night, the locomotive, several cars and a switch engine that was "helping out" were derailed. The accident occurred near the Galena street viaduct about half-past ten o'clock and within an hour the line was cleared and all damage repaired so that traffic was resumed. Another wreck occurred at Beloit Saturday night and the wrecking crew and outfit from Janesville were called to open up the main line. Five flat-cars loaded with sand from the Knickerbocker Ice company's plant in the Line City were left on the main track by a switching crew and a regular train pulled by locomotive number 118 crashed into them. The pilot of the engine and one car were demolished and traffic blocked for several hours.

MORTUARY MENTION.

Pomeroy B. Grove. Pomeroy B. Grove, the fourteen-months-old son of Mr. and Mrs. Fred P. Grove, died at their home on South Franklin street yesterday afternoon at half-past one o'clock.

The demise was the result of a complication of bronchitis and other illnesses from which the child has been suffering for some time. The funeral services will be held tomorrow morning at half-past ten o'clock from the home and the remains will be taken overland to Edgerton for burial. In their bereavement Mr. and Mrs. Grove have the sympathy of many friends.

Mrs. Sophie Gunnes. The funeral of the late Mrs. Sophie Gunnes was held yesterday afternoon, services being conducted at the home at 254 Western avenue at two o'clock and from the Norwegian Lutheran church at half-past two.

Rev. O. J. Kvale was the officiating clergyman and the pallbearers were John Bjerkness, Anton Bjerkness, Charles Bjerkness, Richard Johnson, Hans Gunnes and Paul Olson. Interment was in Oak Hill cemetery.

Mr. Chapin. Frank Chapin of 260 South River street received the sad news of his father's death in Harvard yesterday morning. The deceased was a large property-owner in South Harvard.

MILTON JUNCTION BANK WAS ENTERED

Twelve Dollars in Money and Some Jewelry Taken—Entrance Made Through Rear Window.

Twelve dollars in cash and some jewelry was stolen from the State Bank building in Milton Junction during Friday night. The robbery was not discovered until the store was opened Saturday morning. Then the clerk noticed a window in the rear had been broken and iron bars which protected it had been twisted off. Through this aperture the thieves reached the key to the rear door and unlocking it effected an entrance.

Auto and Football Headgear

Necessity For Adequate Protection In Sreuous Modern Sports.

Construction of These Guards In Detail—Improvements In Goggles.

Picture puzzle—find the man inside. The development of automobile and football armor has advanced to such a degree that the daredevil driver and pugnacious chaser now cease to look even almost human.

The auto racer's makeup has seen the football player's rigging and raised him out of the game. The space filling drivers even go the deep sea divers one better. Like the fellows who invade the watery depths, their armor is built

AUTO DRIVER'S HEADGEAR.

to neutralize the air pressure. The football player, on the other hand, aims to provide himself a sort of cushion to lessen the force of his contact either with the human line of his opponents or when he hits the ground.

Some of the drivers in the recent Vanderbilt auto race, won by Wagner of France, appeared at the start arrayed like bogey men. No feature of their face was visible.

The auto racer's headgear has improved every year. At first the drivers wore caps like a German soldier's headpiece. As the speed of automobiles increased it was found that these caps did not withstand the air pressure. They were thrown away.

The driver's present headpiece is a tight fitting hood, somewhat like a football head protector. It is made of leather as hard as iron, with a few holes on top to air the scalp. The hood rests low on the forehead and reaches to the neck. It is fitted with leather wings, like a horse's blinkers reversed. The wings leave the ear exposed, but they are protected in front by a circular pad of felt which offsets the wind, but does not cut off sound.

Then there are heavy goggles to protect the eyes. These are absolutely essential, as the pressure of the wind against the eyes of a driver going at record pace would quickly blind him. They also serve to keep his eyes free from dust. The goggles this year have been made perfect by a new invention. This is a greasy compound that is rubbed on the glass and then carefully wiped off. The greatest danger in wearing goggles is caused by the dampness that gathers on the glass inside and obscures the light. The new compound leaves the glass clear and at the same time prevents the gathering of moisture on the surface of it. All the drivers use it.

Almost all the drivers wear oilskin or smooth-rubber coats. These are drawn over the head like a shirt and have no openings in front. The wind

FOOTBALL PLAYER READY FOR WAR.

slides over this material easily and cannot get inside to puff it out like a balloon. Heavy gauntlets, covering the whole forearm, are worn. These keep the wind from blowing up the arms and are just as necessary as the air tight coats.

In comparison the football player's armor is light. The back line men are the only ones thoroughly rigged out nowadays. The gridiron stars aim only to protect themselves against the bone breaking tendencies of the game. They wear a hood of pliable leather and well cushioned on top. There are wings for the ears, but they are constructed to save the ears from harm in the grueling scrimmages.

A Birdseye View Of Sporting World

Yacht Races at Jamestown Exposition—"Fighting Dick" Hyland.

After a meeting of the Jamestown exposition yacht racing commission at Norfolk, Va., recently it was announced that King Edward of England, Emperor William of Germany, Sir Thomas Lipton and President Roosevelt will donate cups to be contested for in the exhibition races on Hampton Roads next year.

The trophy of King Edward will be sailed for in the international race for Class Q boats, the most important event on the racing programme.

The emperor's will be contested for by boats in classes from A to D, the president's by cutters, sloops and yawls and Sir Thomas' by boats in classes R and S. The winners of these cups will own them.

"Warry" McLaughlin, the pitcher, who finished the season with the Springfield (Mass.) club of the Connecticut State league, has returned to his home in Plainfield, N. J., for the winter and is planning to organize a New Jersey state league for next season. He proposes to have six towns represented in the new organization, each club to play three games a week, on Saturday, Sunday and Wednesday.

The towns mentioned are Elizabeth, Rahway, New Brunswick, Plainfield, Somerset and Westfield. It is planned to play Sunday ball in Elizabeth, Rahway and New Brunswick, where games have been allowed for several seasons without molestation by the authorities. "McLaughlin will call a meeting of the baseball promoters for the purpose of discussing the scheme."

"Fighting Dick" Hyland is the most promising young featherweight in the country. He looks like the coming Joe Gans of the "featherers." He trimmed Young Corbett and Eddie Hanlon so decisively as to cause experts to figure him out as the man that will put the redoubtable Gans himself on the slippery pugilistic toboggan.

Of course Hyland will have to put on more natural fighting weight before he tackles Gans or Bat Nelson.

Hyland, like Sam Berger, Jimmy Britt and Joe Thomas, is a denizen of

"FIGHTING DICK" HYLAND OF FRISCO.

San Francisco. The Pacific slope air seems to be great "dope" for fighters. Ought to have some of it bottled and shipped to several other localities that could be named.

At Lexington, Ky., recently steps were taken to form a new trotting breeders' association. H. K. Devereux, Williams Russell Allen, J. W. Johnson, S. R. Holt, H. N. Bain and R. C. Estill were named as a committee on plan, and they agreed upon the name American Association of Trotting Horse Breeders and outlined a constitution and bylaws.

The life membership is \$100, and the initiation fee is \$5, with annual dues of \$2. One general meeting will be held each year at which important stakes will be decided. Entries to these stakes will be confined to members of the association.

The plan is similar to that of the former National Association of Trotting Horse Breeders, leaving out the registration question. If all the breeders of the country are enrolled a powerful organization for the advancement of healthy sentiment will be created, and its influence will be felt in legislative halls.

The succeeding steps will be taken with deliberation. An association of this kind deserves to succeed.

St. Paul After 1907 Pin Meet. St. Paul bowlers are out for the 1907 tournament of the American bowling congress and have formed a temporary organization, with Dennis Brandt as chairman and T. J. Gronewold as secretary.

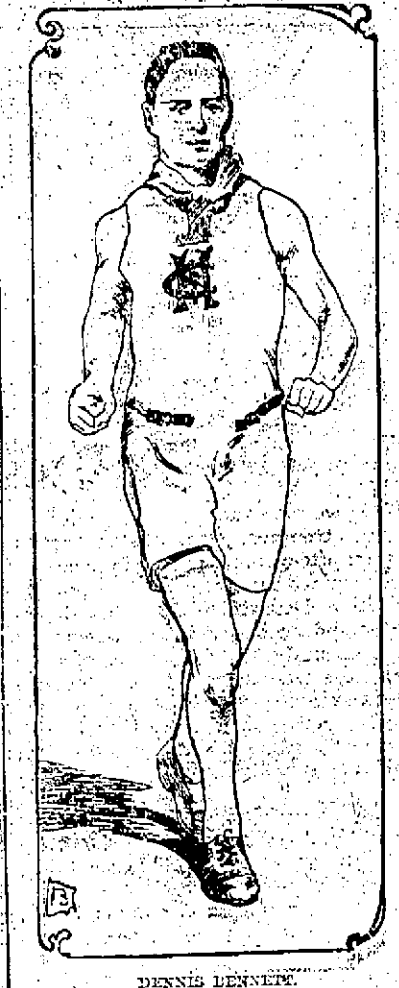

A general meeting of the bowlers has been called to further the project. It is planned to hold the tournament on the stage of the Auditorium, which has room for twenty alleys.

Secretary Samuel Karpf, who was a visitor in St. Paul recently, reports that Dayton, O., his home town, is still a candidate, but probably will retire if Cincinnati or Pittsburg should enter the field.

Another Canadian Long Distance Star

Dennis Bennett, Winner of the Illinois A. C.'s Annual Marathon Race.

Not content with the capture of the Marathon race at the recent Olympic games at Athens by W. H. Sherring, the "Little Canadian" city of Hamilton, Ont., turned loose another long distance star when Dennis Bennett, a team mate and protégé of Sherring, won the second annual Marathon race of the

DENNIS BENNETT.

New Illinois Athletic club in Chicago recently in the remarkably fast time of 2 hours 41 minutes 33 seconds.

Bennett's performance over the long route was the greatest bit of distance running that was ever witnessed in the middle west.

Sidney H. Hatch of River Forest, Ill., finished second, over five minutes behind the winner, and J. T. Armour, an unattached man, was third, nearly ten minutes after Hatch.

Bennett's great time broke the record for the I. A. C. run by nearly thirty-five minutes and was only twelve minutes behind the world's record, held by McCarty, also of Hamilton. The race this year was a distinct improvement in point of time over last year's affair. Eleven men finished faster than the winner of the last event.

Bennett's marvelous performance was a revelation to followers of the game. There was never a doubt that Bennett was head and shoulders above every one of the forty-two starters in the race.

THE ROUNDUP.

Willie West Turns Round Another True Baseball Yarn.

By WILLIE WEST.

Here is a yarn handed to the writer by the only truthful man he has ever met. Look it over:

A peculiar incident occurred some years ago during a game between the Chicago and New York clubs. It was on the New York grounds, which were then down at St. George, Staten Island, so close to the water that ocean liners passing by could take a peek at the games. On this particular day Jimmy Ryan, then with the Chicago, but a few years ago with the Washington club, was at the bat. The first ball pitched Jimmy met squarely on the trademark, and away it sailed far out over the center field fence and was there lost sight of.

"Judge of Ryan's amazement," says the venerable historian of this feat, "when a month later he received a package from England and on opening the same found a baseball and a letter accompanying it from a gentleman unknown to the player, which explained that the writer through a pair of field glasses had been watching the game as the boat was picking her way slowly by and that the identical ball that Jimmy hit had dropped on the upper deck of the steamship and was now respectfully returned to the player who had swatted it."

"My ambition is to win the American league pennant three years in succession," says Charles Griffith, manager of the New York Yankees. "This causes me to observe that in many cases ambition is merely trying to do the things we can't do instead of those we can."

We don't notice that there has been much advance in aeronautics. It is still considered a "wonderful thing" when a balloonist alights without being killed.

It won't be the fault of Comiskey or the Americans of Murphy of the Nationals if the next Chicago bank statement isn't all that could be desired.

In frenzied finance we have John D. and in frenzied baseball we have John T.

Notwithstanding the fact that the lady who fell from a balloon didn't die, the Libertyville trotting meeting was a great success.

JAPANESE BARRED UNDER STATE LAW

SAN FRANCISCO BOARD CLAIMS "JUSTIFICATION FOR ACT."

COMPLIES WITH STATUTE

Measure Enacted by Legislature Provides That Children of Oriental Parentage Shall Be Placed in Separate Institutions.

San Francisco, Oct. 29.—"When Secretary Victor Metcalf arrives to inquire into the action taken by the board of education of the city and county of San Francisco in providing a separate school for Japanese children, we will meet him more than half way," was the statement of President Aaron Altman Sunday.

"The position taken by the board was for the best interests of the public schools of San Francisco, and in strict conformity with the state laws. We believed that the best interests of schools should be subserved by sending children of Japanese parentage to a separate school. If we have erred, and can be shown whereby we have done so, the board will be more than pleased to correct its mistake—if any has been made."

Complies with State Law.

"Without receding from our position, the board claims that the fault—if any exists—is with the legislative body of the state. In plain and unmistakable language that particular section of the statute under which the board acted stated that all children of oriental parentage shall be placed in a separate school. The board would like to have the constitutionality of the statute tested in the courts."

City School Superintendent Alfred Ronconyeri said the coming of Secretary Metcalf was not necessary, as the exclusion of Japanese from the schools provided for white children is requested by law.

Men Attend the Schools.

"Many of the so-called Japanese school children," said Mr. Ronconyeri, "are men of 20 to 25 years of age. They have no right to attend schools established for our little boys and girls, and we would not allow white men of the same age to go to these schools."

"These pupils are largely of the Japanese servant class working for their board and lodging. They are to be commended for working, but they are not entitled to go to school like little boys and girls."

Japs Not Denied Rights.

"We do not deny Japanese any educational right, but there are separate schools for them, and those they must attend."

"Before the fire there were between 400 and 500 Japanese students in the public schools. A new count is now being made."

"Of course, if the United States declares our state law in conflict with a treaty, that's another matter. But at present we are guided solely by California law."

Action Soothes Japanese.

Tokio, Oct. 29.—The course of action pursued by the United States with the view of protecting the treaty rights of the Japanese has been somewhat effective in soothing the feelings of the Japanese people, injured by the San Francisco school incident, and accentuating the confidence of the people in President Roosevelt, whose fairness is praised on all sides. It is altogether unlikely, and there is as yet no sign whatever, that the Japanese will imitate the Chinese in boycotting American goods.

WHOLE STATE HOLDS REVIVAL

More Than 40 West Virginia Churches in Religious Campaign.

Wheeling, W. Va., Oct. 29.—A simultaneous revival is now in progress in all the West Virginia churches of the Christian denomination, and a very unusual increase in accessions to the church membership are being scored.

In Wheeling the results are not up to the expectations, but in most of the towns of the state the accessions are more numerous, reaching already more than 2,000.

The revival reached its climax Sunday in Wheeling with a great mass meeting in the Court theater. Two thousand people were in attendance. More than 40 churches, located in Parkersburg, Wheeling, Huntington, Sistersville and Clarksburg held the revivals.

This is a new move in religious circles in this state, and is attracting a great deal of attention.

MARLBOROUGH STORY IS DENIED

Solicitor States No Formal Deed of Separation Has Been Signed.

London, Oct. 29.—Sir George Henry Lewis, acting as solicitor for the Duke and Duchess of Marlborough, says he is authorized to state that no deed of separation between the duke and duchess has been signed and that the children of the couple are not in the custody of the duchess, but are with their father at Blenheim castle. The text of the solicitor's statement is as follows:

"The Duke of Marlborough and members of his family, including the Marquis of Blandford and Lord Ivor Spencer Churchill, the duke's sons, are in the residence at Blenheim. The report that a deed of separation already has been signed is untrue."

FIVE BUILDINGS BLOWN TO PIECES

EXPLOSION OF NATURAL GAS AT COFFEYVILLE, KAN.

THREE PERSONS KILLED

Whole Row of Business Houses Is Demolished, Twenty Men and Women Being Injured by Flying Debris.

Topeka, Kan., Oct. 29.—Three persons were killed, four were seriously injured and 20 more were more or less injured in a terrific explosion of natural gas, which completely demolished five two-story brick business houses at Coffeyville, Kan., at noon Sunday. The dead:

Dead and Injured. Jess Ross, a negro. Mrs. J. E. McDaniel. Young son of C. J. Clossen, a grocer. The seriously injured: C. J. Clossen, a grocer. Cotton Ray, a cabman. Mrs. Pearl Keeler. Three-year-old son of Mrs. Keeler.

Caused by Leaking Main. It is supposed that the gas escaped from a leaking main somewhere in the block, and that after a sufficient quantity had accumulated it became ignited, causing the explosion. The buildings were in a row on East Eighth street and were occupied by a real estate office, three stores and a restaurant. The second floors of all the buildings were occupied by rooming houses.

Two Die at Hospital. Neither Ross nor Mrs. McDaniel was killed outright by the explosion, but both were tragically injured and died shortly afterwards at a hospital. Brick and glass struck the negro cabman, and Mrs. McDaniel was crushed by falling debris.

The entire block of five buildings was leveled to the ground, and only broken bricks, scattered lumber and twisted iron remain. The buildings and stocks in them are a total loss, as none of them was insured against explosion.

Fire Follows Explosion. A fire broke out immediately after the explosion, but the flames were quickly extinguished and little damage was done from that source. Several persons were buried in the debris, but Mrs. McDaniel was the only one fatally hurt. The others who were rescued were only slightly injured.

One Little Girl, a daughter of S. D. Frazer of the Kansas Land company, was under the timber and brick for 20 minutes, but was taken out uninjured. The explosion was heard five miles away.

Exile's Body in Native Land. Budapest, Oct. 29.—The remains of Franz Rakoczy arrived here Sunday from Constantinople and were conveyed to St. Stephen's cathedral, where Cardinal Samassa celebrated mass in the presence of a great assembly. Rakoczy was a famous Hungarian patriot and died in exile in Turkey.

Pulajanes Kill Scouts. Manila, Oct. 29.—The Pulajanes in Samar attacked boats carrying supplies on the Surigao river, killed three scouts and wounded one. Five Pulajanes were killed. The supplies were saved. Troops are now pursuing the Pulajanes.

End of Cossack Trial. Yekaterinodar, Oct. 29.—The trial of the Cossacks who proclaimed a Cossack republic has come to an end. Some of the men have been sentenced to imprisonment at hard labor while others were given milder punishment.

International Football Match. St. Louis, Oct. 29.—The West Ends of St. Louis and the Galt, Canada, Association football teams Sunday played two 30-minute halves to a 1-1 tie. Both goals were scored in the second half.

The Wooing of Woman

Began in the Garden of Eden and has been going on with all its delicious consequences ever since. It is the starting point of a woman's life, the hour in which the sun really begins to shine.

Be she savage or civilized it is the dawning of the great light for which every woman longs. The story of how the world in every clime has done its wooing is the most fascinating that can be told the children of men and women.

FARMERS CERTIFY PURITY OF MEATS

Local Shippers of Produce Under
Strict Government Regulation
Since October 1.

Uncle Sam's new pure food law is making itself felt in Janesville as well as in the great meat packing centers like Chicago. Since October 1, the farmer who ships veal or any other carcasses used for food purposes is bound to sign the following certificate, the slips being furnished free usually by the commission house or the express company with which he is doing business. The certificate is as follows: "I hereby certify that I am a farmer, and that the following described uninspected carcasses or parts thereof have been slaughtered by me upon my farm and are offered for shipment in interstate commerce as exempted from inspection according to act of congress of June 30, 1906. The said meat or meat food products are sound, healthful, wholesome and fit for human food." Upon each package before it is sent out is stamped the following: "Express Co., exempted from inspection as evidenced by Shippers' Certificate on file with Initial Carrier."

Shipments of veal, or other meat food to Milwaukee or other points within the state, however, are exempt from the above provision. It does not follow, though, that the product sent may be other than healthful and wholesome, because the inspection provided by the government will promptly condemn all country shipments if they do not come up to requirements.

Another wholesome provision of the law absolutely prohibits the shipment of any veal carcass weighing less than fifty pounds. In all cases, the food shipped must be pure and healthful as in all cases every shipment to points outside the state must be preceded by the signing of the certificate above mentioned. The requirements to be followed by regular butchers and mailmen differ somewhat from the above in that they are obliged to secure from the government a number which must be stamped upon every bit of meat shipped by them.

PRESS COMMENT.

Beloit Has Man in View
Trustees of Beloit college held a long session at the home of Trustee Z. C. Simmons in Kenosha yesterday, the meeting lasting from 12 to 6 o'clock. It is understood that the time was devoted mostly to discussion regarding the selection of a president to succeed Dr. Eaton. It was stated after the meeting that no choice had been made but that an announcement of the appointment probably would be made after the next meeting of the board.

Oblivious of Wall Street
Exchange: A "panic" on Wall street does not mean much nowadays to the country, which has learned to pay no attention to the joys or troubles of the stock gamblers. Practically all of the railroads and manufacturing companies whose stocks are dealt in, are making money and it matters little to them whether their stocks go up or down a few points temporarily so

long as they continue to do a good business and pay satisfactory dividends. A panic on Wall street, which occurs when one set of speculators has got another set in the corner, has little, if any, effect on the general business conditions of the country.

France Repudiates Socialism.
Chicago Journal: Clemenceau's choice as prime minister of France is important in one respect that has not received much notice. He is a man of ability, of long parliamentary experience, and of many battles in the fierce elections of France. But his chief distinction is that he has violently attacked socialism and socialism and has no patience with the German school of sociology. His selection as premier is significant as showing what has long been suspected, that socialism is losing ground in France.

Socialists have stirred up much controversy in the republic of late years, and under the leadership of Jaures they have gained increasing importance in the chamber of deputies. Two years ago it was even thought that they might succeed in obtaining the presidency and through that office sufficient prestige to enable them to gain supreme power. But it is evidently true of French as of American socialists that you can not estimate their numbers by the noise they make. When the matter came to be decided the socialists shrank in size considerably, and ever since they have been losing favor with the people, whose sense of the ridiculous is their strongest point.

Better Train Service for Milton
Milton Junction Telephone: An effort is being made by Peter L. Meyers of Janesville to secure some sort of train accommodations for those of our citizens who desire to attend productions offered at the Janesville theatres. This should be an easy matter. Several freights are sent here from Janesville during the night and all that would be necessary would be to secure permission for passengers to ride in the cabooses. The fact that there was no way of returning from Janesville after nine o'clock in the evening has prevented many here from attending theatrical performances there, and an improvement in the train service would be appreciated.

America's Available Timber
Exchange: North America, however, once the possible wood storehouse for the world, has not enough wood to supply its own demand, notwithstanding its 506,555,000 acres of wooded area. Even now it is dependent upon Canada, which, with its 198,133,000 acres of forests, represents probably the largest single area of any country in the world. Canada sends it entire surplus to the United States. Although large territories of forests, especially in China, Korea, India and South America, remain to be utilized, it is certain that the question of the future wood supply of the world, now attracting the attention of economists, will continue to excite great interest. The continuation of the present wood consumption without comprehensive reforestation, will, within a century at the latest, result in a great and very important scarcity of the wood supply.

WINTER CLOAKS

Judging from the way they are selling our styles strike the popular demand. Never had choicer styles at such moderate prices. We make hundreds of sales to people who have "ransacked" the market, looked at stocks in and out of Janesville.

Our Beautiful Novelties cannot be found elsewhere. Women, Misses and Children can be fitted out here.

FURS

A larger collection was never shown by us. Everything desirable in small furs, such as scarfs, muffs, etc.

FUR COATS

Best values we have ever shown. Leading skins are represented, such as Nearsal, Marmink, Otter, Astrachan, Krimmer, Wool Seal, etc.

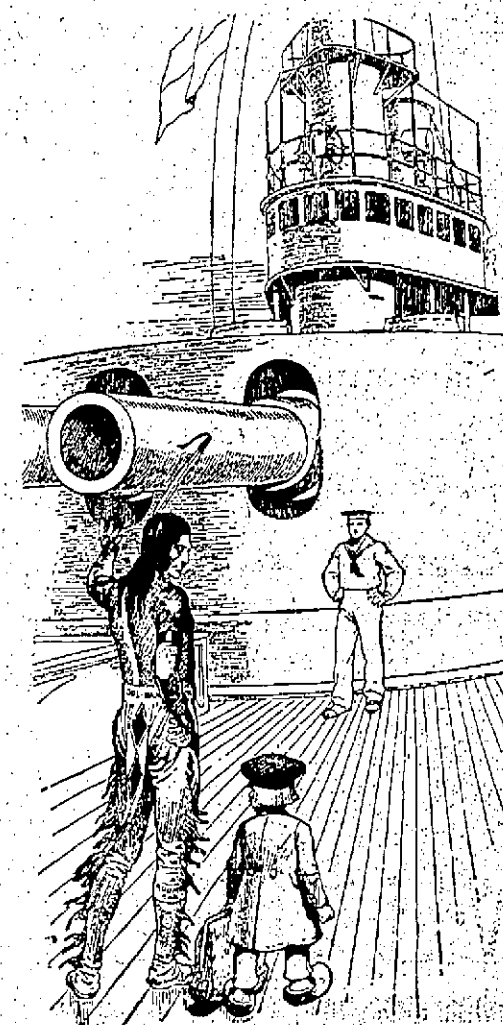

We make a specialty of Nearsal Jackets. Ours at \$45.00 is a hummer.

YOU WILL GET OUT

of the genuine **Round Oak** heating stove a great many good things that no other stove ever did or can do. It is different and better. Because a stove is called "Oak" and in general appearance looks like the "**Round Oak**" don't think it will do its work as satisfactorily as the genuine. For instance, when soft coal is the fuel—note the double fire pot with cone center which absolutely prevents the formation of clinkers and makes

the hotset fire around the outside edge, instead of in the center as is usual in the imitation Oaks. An imitation never in the world equaled the genuine. Why experiment—you know the **Round Oak** is a good stove, if you do not know it you have heard so. It is, we sell it and guarantee it and ask you to see it if you are thinking of buying a stove. The genuine can always be distinguished by the name "**Round Oak**" on the leg and door.

"Great guns aren't they, Fritz? This is America's best battleship."
